

## Attention All FCS Staff!!!

The Family Resource Management Area of Expertise Team has made available for MSUE county offices to purchase bulk orders of the following slide rule calculators from Advantage Publications. Each calculator is personalized with the MSUE logo and website.

**"Credit Card Smarts"** - The "Credit Card Smarts" calculator shows the true cost of paying just the 2% minimum payment each month and the value of boosting each monthly payment. It also shows how many years it would take someone to pay off a credit card, paying just the minimum payment verses how many years if you paid more than 2%.

**"Where to Find Money You Need"** - The "Where to Find the Money You Need" calculator shows how curtailing impulse buying and routine spending on "little things" can result in big savings for important goals. For example, if you spend \$2 a day less; this calculator shows individuals how much that savings equates to in a week, thirty day period, one year, five years, ten years, and twenty years.
